XXVIII MEDJUNARODNO SAVJETOVANJE  
28<sup>TH</sup> INTERNATIONAL CONFERENCE

Opatija, Hrvatska, hotel Ambasador, 31. svibnja – 2. lipnja 2023.  
Opatija, Croatia, hotel Ambasador, May 31– June 2, 2023

## KRMIVA 2023 - FIRST INVITATION!

Zagreb, Croatia, 16 January 2023

Dear colleagues,

We would like to respectfully remind you that the 28th international conference, **KRMIVA 2023**, will be held this year, organized by Krmiva d.o.o. in Zagreb once more. All topics attributed to domestic animal nutrition, feed mixture production technologies, and other areas of animal husbandry will be discussed during the conference.

We cordially invite you to participate in

**the 28th international conference KRMIVA 2023, which will be held from May 31 to June 2 in Opatija at the Ambasador Hotel.**

The international conference **KRMIVA 2023** is a major event for professionals in the feeding and livestock production industries as well as any other interested parties from Croatia and all over the world. You will find the most recent information provided to be really valuable for both your scientific research and application in practice, we are confident.

We are certain that the difficulties caused by the war in Ukraine and the turbulence in the commodity and financial markets will serve as an important motivation for you to attend the **KRMIVA 2023** conference and show that we are stronger as a team than the crisis.

Reserve a period in your calendar May 31 to June 2 this year to attend the **KRMIVA 2023** conference. If you won't be able to join us in person at the **KRMIVA 2023** conference, we welcome you to suggest your colleagues.

Leading specialists from Croatia as well as other countries in the world will transfer their experience, the results of the most recent research, and useful examples taken from real cases. We will also discuss concepts and the most relevant EU animal production regulations.

The general program for the **KRMIVA 2023** conference is divided into a variety of topics:

- ◆ Supplements, nutrients, and micro- and macro elements for domestic animals
- ◆ Alternative nutritional sources for domestic animals;
- ◆ The impact of nutrition on animal productivity, health, and the quality of animal products;
- ◆ Legislation in animal feeding and breeding;
- ◆ Technology of producing feed mixtures;
- ◆ Analysis of feed and feed mixtures;
- ◆ Contemporary methods for farming livestock;
- ◆ Other topics connected to the main aims of the conference

### Brief guidelines for authors:

- ◆ By **January 31, 2023**, the names of the authors and the work's title (in both Croatian and English) should be submitted.
- ◆ The abstract must be submitted by **February 15, 2023**, in both English and Croatian.
- ◆ By **March 31, 2023**, the works (written in both Croatian and English) must be finalized.

The abovementioned details should be sent to [zvonko.antunovic@fazos.hr](mailto:zvonko.antunovic@fazos.hr) and [zjanjecic@agr.hr](mailto:zjanjecic@agr.hr), respectively.

The two possible ways that authors can present their work are orally and on a poster.

We inform the authors that failure to pay the participation fee will restrict them from presenting their work and prohibit it from publishing in the **KRMIVA 2023** conference proceedings.

The papers will be chosen for oral or poster presentations by the **KRMIVA 2023** conference's Scientific Committee after they have been received. All manuscripts accepted for the Conference may be submitted for publication to the scientific-professional journal **KRMIVA**. The **KRMIVA** magazine contains instructions for authors that need to be followed.

The papers will be published in the order of submission after positive reviewer evaluations and proofreading. The authors will be notified in the case of negative evaluations.

**In collaboration with the Zagreb Faculty of Agriculture and the Osijek Faculty of Agrobiotechnical Sciences, the conference KRMIVA 2023 is given on by Krmiva d.o.o. Zagreb and the European Association of Agronomy Engineers (EurAgEng).**
